Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner contacted Applicants' representative regarding what appeared to be a typographical error in new claim 7 (specifically, the recitation in the "identifying" step of "three or more polymorphic sites" as opposed to "two or more polymorphic sites"). The examiner noted that the error created confusion with regard to Applicants' prior election such that a new Election/Restriction requirement might be necessary in order for a complete first action to be prepared. Applicants' representative agreed that this was a typographical error and indicated that he would most likely file a supplemental amendment to correct the discrepancy; however, Applicant's representative indicated that he would first need to obtain and review the application file. As the examiner will be out of the Office beginning next week and until the end of December, Applicants' representative agree to contact the examiner's supervisor (Gary Jones) during the week of November 15 if the supplemental amendment will not be filed.
